Mayor Harrassed; Henson Misquoted

Mayor... Mayor Paul Lindsey this week said he has been subjected to telephone harrasment over a period of the past three months. Lindsey said he has recieved at least a dozen harrassing calls at his home usually at noon or the early evening.

Henson... The caller usually uses filthy language and obviously makes an effort to disguise his voice, the mayor reported. "How does it feel to be a dictator?" the caller asked him on one occasion.

Lindsey also revealed that he has received several anonymous letters.

School Board Sets Tax Basis

Canyon school board Tuesday night set a basis for levying school taxes in Umbarger School District, consolidated last Friday with Canyon, for the current year.

From Jan. 1 to last Friday, school taxes will be levied the same as last year on a basis of county valuations with a rate of \$2.25.

From last Friday on, Umbarger property will be taxed on the same basis as other property in Canyon Independent School District.

The board passed a motion that Jim McMorries be contracted to update the tax schedule of the Umbarger district to meet Canyon's rates.

The Canyon school district last Friday annexed the Umbarger district.

McMorries said the appraising will cost about \$2,560 and should be completed by July 15. McMorries is currently doing keep-up on the school district's tax properties.

Supt. of Schools Jerry Jacobs announced at the meeting that architects for the proposed junior high school building will probably have drawings and plans for the structure completed and ready for approval by June 3. He said the date to receive bids for the construction has tentatively been set for June 26.

The board also discussed a proposed contract for the consolidation of the school's and City of Canyon's tax offices.

Jacobs and school tax assessor-collector Conway Kuykendall were instructed by the board to prepare a budget for the working of a joint office so board members could decide

Dean Cross Receives WT Award

Miss Ruth Cross, dean of women at West Texas State University and a member of the faculty 42 years, received the \$1,000 Faculty Award at the spring convocation exercises Sunday in Amarillo.

The university's Faculty Council presents the award annually for excellence in teaching.

Miss Cross, 69, has announced her retirement effective July 1. She was formerly head of the department of physical education for women.

A record 659 students received various degrees at the convocation, the first to be held off the WTSU Canyon campus. It was in the Amarillo Civic Center coliseum.

Dr. Cecil C. Humphreys, president of Memphis State University, spoke to the graduates and a full-house of relatives and friends as commencement speaker.

Moral courage, he said, is the basic ingredient which seems to be lacking in American society today.

League Signal Said Slower

Traffic lights proposed by the Canyon Taxpayers League would work but wouldn't handle traffic very well. (See accompanying diagram.)

This is the opinion of Chili Smith, district engineer with the Texas Highway Department.

"This signal would work but it wouldn't handle traffic as well as the lights now being used," declared Smith.

The light proposed by the Taxpayers League would have four lane traffic and left turn signals for the inside lanes.

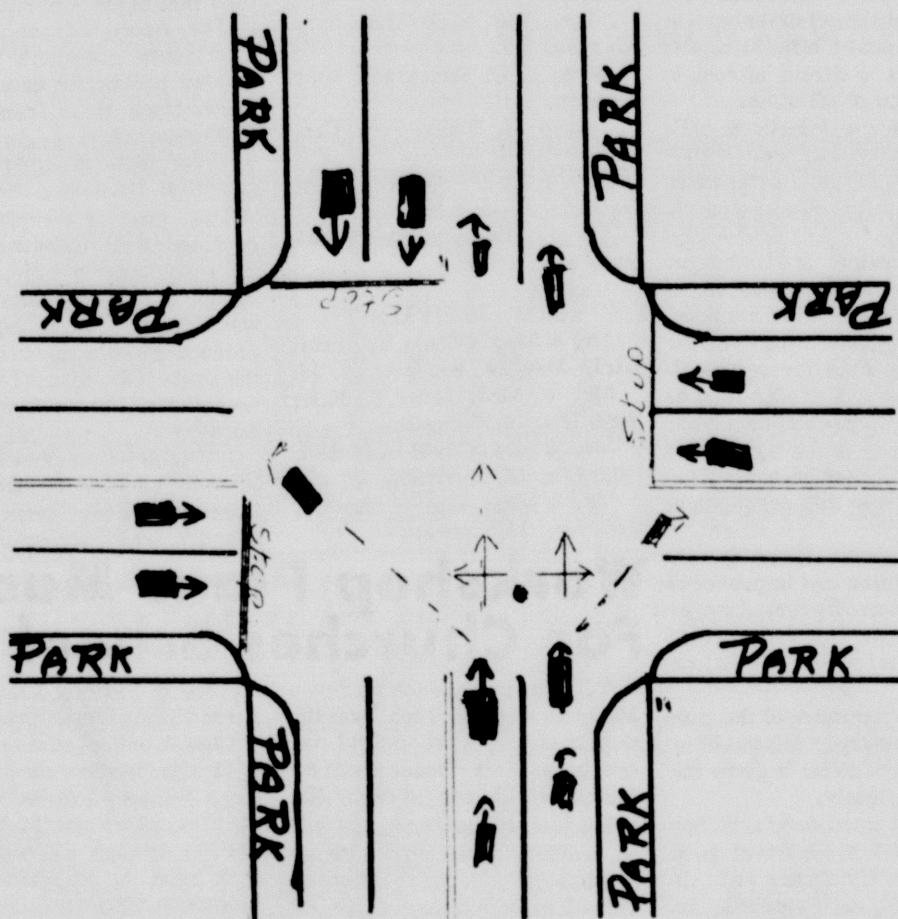

Smith pointed out that when the left turn signal is activated on such a signal it stops all traffic except on the lanes being allowed to turn. He said this would handle traffic much slower than the signals presently being used on 23rd Street.

"It would be a very difficult system to synchronize," he added. "It wouldn't carry as much traffic."

"I'm no traffic engineer," said Smith when asked if the signal proposed by the League would be acceptable to the state for 23rd Street here.

"I'd just have to submit it to the state," he said.

Will Cast Ballots At City Annex

A city ordinance prohibiting parking on 23rd Street (U.S. 87) and two blocks of 4th Avenue will go to the voters for approval or disapproval from 7 a.m. to 7 p.m. Friday.

Voting in the City Commission-called referendum election will be conducted at 303 16th Street, the City Hall Annex.

Persons 21 years of age or older who have lived in Canyon six months and plan to make Canyon their permanent home and who have registered to vote may ballot in the election.

The Friday election will determine the fate of the entire 23rd Street traffic plan—a plan which includes installation of medians and left-turn signals—, according to city officials.

The ordinance to be voted upon, number 332, was enacted in April by the commission as its first step in implementing its traffic plan. It has drawn fire from businessmen along 23rd Street and intersecting avenues.

Opponents of the ordinance say the prohibition of parking will cut their business and decrease property values.

Commissioners say the traffic volume and accident rate on 23rd Street warrant some type traffic control.

The special election was called in late April by the commission after coming under fire for passing the ordinance.

Election judge Friday will be Mrs. Dewey Foster.

County Commission Eyes PRCC Again

Randall County financial participation in the Potter-Randall County Citizens Committee may hinge on the committee's meetings being open to the public.

Randall commissioners Monday took a new look at a tentative agreement to contribute \$3,000 to the committee.

Commissioner Glenn Dowlen was most outspoken. He said he would not agree to make any county funds available to a group that did not hold open meetings.

Carroll Pouncey, executive director of PRCC, last week said public discussion was shut off by the committee on a recent study in order that the

committee might accomplish something. He said sustained discussion by some individuals who showed up at meetings made it impossible for the committee to get any work accomplished.

"After they refused to let the public in one time I am reluctant to go along until I know a little more about it," said Dowlen.

Commissioners confirmed Randall County school trustee appointments. The board of trustees is now made up of R. B. Gist, Jr., Precinct 1; Don Dean, Precinct 2; Robert Skinner, Precinct 3; Donald B. Marsh, Precinct 4.

McAlpine Found Guilty

Rip Hall McAlpine, 24, of Amarillo was found guilty of possession of marijuana Monday and sentenced to six years adult probation.

A six-man and six-woman jury deliberated about 30 minutes during the late afternoon before handing down the guilty verdict in Judge E. E. "Gene" Jordan's 47th District Court.

The verdict followed about three hours of testimony in the case, during which time McAlpine, who was arrested Dec. 5, 1968 after a raid on his posh south Amarillo apartment, denied having knowledge of marijuana being in his residence.

McAlpine's penalty was steeper by four years than what his attorney, Charles Fairweather, had sought and less stiff than that asked by Randall County—"10 years in the penitentiary or maybe less."

Judge Jordan, in assessing the penalty, said his decision was weighted heavily by McAlpine's alleged poor physical and mental condition.

Fairweather had earlier told the judge the defendant suffered heart trouble and had been hospitalized for long periods of time earlier this year. He also stated McAlpine was under the

care of an Amarillo psychiatrist.

McAlpine has 10 days to appeal the court's decision.

Earlier in the day, Fairweather attempted to have the state's search warrant—which was issued for the search of McAlpine's apartment—quashed and the evidence gained through the search thrown out.

Fairweather contended the search warrant had been issued on the basis of hearsay information gained by Amarillo police through informants.

The judge overruled Fairweather's motion.

Dave Griffin, Don Smith and Joe Bowes, three Amarillo Police Department intelligence officers, testified for the prosecution as did Bill Dunn, an Amarillo chemist.

Smith testified that during the search of McAlpine's apartment he found a large brown suitcase and a small shaving kit, both of which contained what he believed to be marijuana seeds. He also testified that he vacuumed the carpets in McAlpine's apartment.

Give Awards At Umbarger

End of the year school program, sponsored by the Teacher-Parent Organization, was held Wednesday evening, May 14, at the gymnasium of the Umbarger School.

A musical program was presented by grades 1 through 8. Director for the program was Mrs. Vincent Ramaekers. The theme for grades 1 through 4 was the "Pied Piper of Hamelin". Two themes were carried out by grades 5 through 8. They were "Tribute To Space" and "Good Mother Earth".

Presentation ceremonies were held for those receiving awards for outstanding honors in individual fields.

Honor students were recognized on the basis of scholarship, dependability, initiative, and friendliness. They were Arlene Koch, Jan Wieck, Elaine Ramaekers, Sharon Artho, Sharon Lindemam, Chris Wieck, Jimmy Friemel, Brenda Battenhorst, Marcia Ferguson, and Judy Wilhelm.

Those receiving the awards in sports were Randy Wieck, most valuable player in volleyball and Gary Gerber, most valuable player in basketball. Gary also received the Fighting Cougar Award for being the most valuable player in all-around sports. Jan Wieck and Deborah Ramaekers shared the award of being the most valuable player in volleyball. All students are eighth graders.

Schools Consolidated

Loss Saddens Town

BY TROY MARTIN

Two members of the Umbarger school board showed a group through the neat red brick school building Monday night.

Its floors, windows and walls reflected the loving care given them by the custodian, Miss Alice Koch. In the library was a neat shelf of National Geographic magazines dating back to 1906—a gift of a benefactor long since deceased.

Out in the school yard in gathering twilight two boys played intermittently on a slide and a merry-go-round which may soon be abandoned.

Also in the school yard, a group of some 50 parents lingered 15 minutes past the time set for them to assemble. They seemed reluctant to file into the

school assembly hall for what may be the last bit of business to be conducted as patrons of the Umbarger Common School District.

The three school board members and the school superintendent from Canyon were sympathetic but there wasn't much they could do to soften the blow. Umbarger had lost its school district and that was that.

Whether the school will even remain open or not is in the balance.

Most of the people in the room had started to school in the little red school house or its predecessor. And it was a pretty good school too.

It had produced bank officers, successful farmers, political leaders and businessmen.

Besides that, the school and the Parish Church just down the street have been focal points of the Umbarger community for generations.

The people finally were seated in the meeting hall. Canyon Board President J. O. Parker, flanked by Canyon board members Jerry LaGrone and Wesley Cox and Canyon Superintendent Jerry Jacobs, tapped for order with a ball point pen.

There was respectful silence. Then Raymond Battenhorst rose to give the valedictory for fellow Umbarger board members Leo Artho and Eddie Wieck.

"We are not your board anymore," he said sadly, noting that Umbarger school district (See LOSS,

FROM THE CANYON RIM

Gay and Bob Hendrix have sold their house at Lake Tanglewood and will be moving back to Amarillo soon.

This means I have lost my correspondent at Tanglewood and I am looking for a new one. Gay has done a wonderful job in covering Tanglewood happenings and we here at The News are going to miss her.

I hope I can get the folks who bought the Hendrix home to write for The News.

I think it is only fair that the new tenants should at least take over the chore until we can

find someone to do it on a permanent basis.

I understand that they have had a smattering of newspaper experience.

The couple is S. B. and Frances Whittenburg.

Mayor Paul Lindsey received a poison pen letter the other day from a person who accused the Mayor of having "no guts."

The letter berated the mayor at length for being spineless.

You guessed it. The letter was anonymous.

It is of the greatest importance that you cast a vote in Friday's election.

Whatever the decision, I hope it is made by a substantial number of electorate. Then when the decision is made, I hope everyone will abide by it. Canyon cannot afford a constant wrangle over anything.

The Canyon News has made every effort to give the facts concerning Friday's election. We are letting it hang there. It is a decision for the people and I think that, equipped with the facts, the people are capable of deciding for themselves.

I do think Canyon has a dedicated, conscientious city commission.

Any mistakes our commissioners make will be honest mistakes. I believe that any decisions they make will be made in the sincere belief that they have been made for the best interests of the people of Canyon.

Any effort to intimidate any member of the commission- or any other public official for that matter- is a direct affront to the freedom of all of us.

The obscene telephone calls Mayor Lindsey has been receiving is a sordid piece of business indeed.

The meeting at Umbarger school Monday night was one of the saddest I've ever attended. It was the first time I've ever attended a wake for a school.

The first six grades were taught at Umbarger next year but every one of the 50 persons at the meeting understood all too well that even this arrangement won't last.

I hope that somehow the old school building can be preserved as a community center and library for the Umbarger community. It is too precious to lose entirely.

There's too much of the past of most Umbarger folks tied up in that school to let it go by the board completely.

I am an uprooted farm boy myself and I always feel good when I go to Umbarger and talk to the Raefs, the Friemels, the Batenhorsts and the Beckmans.

For all our scientific sophistication, the Umbargers of this country are still America at its best.

Our World

BY ANN BROWN

The majority of productive Americans were shocked and revolted by the Supreme Court's decision in the Scofield case. Why? Hasn't Judge Earl Warren's Court already broken more laws and American traditions than all the hoodlums combined? Hasn't the Supreme Court set the precedent of favoring the crooks? And isn't that the policy now adhered to by the majority of our courts? Judge Williams' Deaf Smith County Court is a shining exception. (May his tribe increase!) The juvenile delinquency rate in Hereford has dropped from 7% of the school enrollment to 1.9%. Any kind of law enforcement that reduces crime more than 50% is worthy of emulation.

(If Judge Williams were made Chief Justice of the Supreme Court, we could return to the law-abiding, God-fearing policies that made America great.)

The Scofield case involved four union members who exceeded production quotas. The union fined them from \$50 to \$100 each. And our courts have upheld such un-American tyranny all the way.

This kind of tyranny is not confined to the unionized North. Recently, in Amarillo, a West Texas State University student was fired because he repeatedly cleaned a warehouse in less than the prescribed time. (There was no complaint about the quality of his work.)

In Plainview, a carpenter was fired by a contractor because he "put too many nails in one board." The instructions were:

Workshop Plans Made For Churches School

"Creative Teaching for a Ministry with Persons" was the theme of a workshop held recently at Polk Street United Methodist Church in Amarillo.

Sixteen of those attending will be working June 9-20 with an ecumenical Vacation Church School to be conducted for all children not related with other summer church schools. The school is being planned by the First United Methodist Church, Episcopal University Center, St. Ann's Catholic Church and First Presbyterian Church.

Church school classes will be 9-11 a.m. Monday through Friday. Nursery I (those who will be 4 years of age by September 1) through Elementary IV will meet at the First United Methodist Church while classes for Elementary V and VI will be conducted at the First Presbyterian Church.

Mrs. Don Sheffy, Mrs. J. L. Markham and Mrs. Fred Begert are coordinators for the church school. Enrollments are being taken now at the offices of the First United Methodist Church, 655-3540.

VOTE AGAINST LIMITATIONS, RESTRICTIONS,

REGULATIONS. . . Not Needed.

The traffic problem being considered exists only 2 hours on **ONLY** 5 days per week and **ONLY** when the University is in session.

ACCORDING TO CITY HALL'S records **ACCIDENTS** are few, property damage light, injuries slight in the area in which these **LIMITATIONS, RESTRICTIONS** and **REGULATIONS** are being sought.

Their records show 18,750 cars through 4th and 23rd in **A DAY**. 11 property damage accidents in **A YEAR**. 2 **MINOR INJURIES**

Faster traffic will be more dangerous.

I personally make 2 to 4 round trips daily from Downtown to the Buffalo Bookstore and at least 1 daily during busiest traffic periods. If anyone has a complaint on traffic conditions, it should be me. I find traffic moves **ORDERLY, SAFELY,** and with **FACILITY.** Better than Amarillo, safer than Dallas, much better than Lubbock whose engineer recommended these **LIMITATIONS, RESTRICTIONS** and **REGULATIONS.**

FOR A BETTER, HAPPIER CANYON.

Two of our nine city police could surely be spared at least one hour daily to direct traffic on Highway 87 at 4th and 2nd during the **RUSH PERIODS.**

Amarillo does this, Dallas does it. We do it at the football games. Is the football game more important than going to college or to work?

Other signal lights could be installed without voting an Ordinance.

PERTINENT INFORMATION

At least two rumors are going the rounds in Canyon:

1. Traffic lights as far out as Tenth Street cannot be synchronized with those at Fourth Avenue and North on Highway 87. This morning a local citizen, very interested in the welfare of Canyon, drove several of the heavy traffic streets in Amarillo, including Fillmore from 11th Street north to the railroad, and Taylor south from the railroad to 11th Street. Each direction, every traffic light was synchronized so that no driver need stop during the entire eleven blocks. If Amarillo engineers can synchronize eleven blocks of traffic, engineers can do the same for ten blocks in Canyon.

2. That only "recess storage lanes" will handle the traffic on Highway 87 and on Fourth Avenue at the Campus. The Canyon citizen referred to above checked the traffic lights on 10th Street east from Adams to the Y at the turn to the Fair Grounds, and from 1st Street to 11th Street on Tyler, Polk, Taylor, Pierce and Fillmore Streets. Each of these streets has four lanes of traffic, with parking on each side of the street. On many of the intersections on these six streets, the same kind of lights we have on 23rd Street is installed, with the addition of stop lights for cross traffic. On others, in addition to red stop lights, go ahead signs with right or left turn signals have been added.

The traffic in downtown Amarillo is handled with the same traffic system displayed in the large ad on this page. To say that four lanes and adequate turn signals will not work on 23rd Street is false information. The composer of this article regrets that it is so.

What did the University have to say on this subject.

The Driver Education Department of the University states that the present speed of 40 miles per hour on Highway 87, without crosswalks at the Fieldhouse (2nd Avenue), the Post Office (3rd Avenue) and Fourth Avenue, is a dangerous hazard for inexperienced drivers. If the speed were reduced to 25 miles per hour, the three crosswalks added and proper turn signals installed, it would eliminate the present hazard for new drivers.

The local citizen also stated that he is favorably impressed by the interest taken by the Amarillo city government in helping the business in the downtown area of Amarillo. Parking meters have been removed; parking is available on every block of the downtown business section. That's quite a contrast from the situation in Canyon. Our city officers are trying to make it more difficult for the Campus merchants to maintain their businesses, by the elimination of parking on Highway 87 and on two blocks of Fourth Avenue. If the Ordinance upon which the citizens will vote Friday is defeated, these merchants, especially those with front parking only, will be able to stay in business. To them, a negative vote is the difference between staying in business or closing.

Twenty-third Street (Highway 87) is 90 feet wide. The city is now using 70 feet. If there is ever any need for wider pavement they can set the curb back 5 feet on each side, increase the width of the paving to 80 feet--60 feet for traffic and 10 feet on each side for parking. The city can keep the word of its predecessor without taking parking away from any merchant or property owner.

Miss Kuykendall Weds Al Reaves

Miss Kay Kuykendall pledged formal marriage vows with Troy Albert (Al) Reaves, Jr. in ceremonies Saturday night at the First United Methodist Church of Canyon.

Rev. J. Frank Peery, pastor, officiated at the exchange of double ring vows.

The bride is a daughter of Mr. and Mrs. Conway Kuykendall of Canyon. Parents of the bridegroom are Mr. and Mrs. Troy Albert Reaves of Fort Worth.

Mrs. Glenn Dowlen, organist, played appropriate prenuptial selections and soloist, Dianne Davis of Silverton, sang "Walk Hand In Hand With Me" and "One Hand, One Heart".

The church was decorated with a central 21-branch candelabra with background of jade foliage with arrangements of white gladioli and pink carnations. Flanking were foliage decorated spiraling candelabra and two arrangements of pink and white flowers on white column pedestals. The center aisle was roped with satin bows and streamers for use by the family and wedding party and the aisle was lit with votive cup candles on white poles with accenting garlands of greenery.

Candlelighters were Lane and Karie Sumner of Fort Worth, cousins of the bridegroom.

Mrs. Ken Kuykendall, sister-in-law of the bride from Athens, Texas, served as the matron of honor. Bridesmaids were Mrs. Wayne Cooley and Miss Jo Troth of Canyon. They wore long-formals of pink dotted swiss crepe trimmed with pink centered daisies. Their small pink tulle picture hats were edged with scalloped brims enhanced with white daisies and white ribbon streamers. White wicker baskets filled with pink miniature carnations and rosebuds, white daisies and babies breath were carried by the bridal attendants.

John Tipps of Amarillo was best man. Groomsmen were Chris Kuykendall of Canyon, brother of the bride, and Allen Chaffin of Fort Worth.

Groomsmen were Rickey Foster of Amarillo, Ray Pauling of Amarillo, Johnny Bell of Panhandle and John Edward of Ralls.

Given in marriage by her father, the bride wore a formal wedding gown of white bridal satin with an empress bodice fashioned of Alencon lace and re-embroidered with pearls. White lace appliques were scattered on the A-line skirt which

was accented at the hemline with scallops frosted in pearls. The chapel train had an insert of lace accented with pearls and her lace coil was complemented with pearls and lily of the valley flowers which held a brief veil of illusion, frosted with lace flowers.

The bride's ensemble was fashioned and made by her mother. She carried a bouquet of white miniature carnations and pink rosebuds which was centered with two white orchids which were a lift-out corsage inserted for her travel costume.

A reception honoring the couple was held in Fellowship Hall of the church where both bride and groom's table were used. The bride's table featured a silver punch bowl, three tiered wedding cake, silver candelabra and baskets of white and pink flowers. Covered with a draped pink cloth, the table furnished strawberry punch and pink coconut mints for guests.

The bridegroom's table was round with a white sheer floor-length cloth and centered with a three branch silver candelabra and arrangements of fern. Chocolate cake and coffee were served at the table, which was accented with a silver coffee service.

After the reception, the bride changed to a navy blue and white linen suit with accents of red. Both the bride and bridegroom were graduated from West Texas State University the following night.

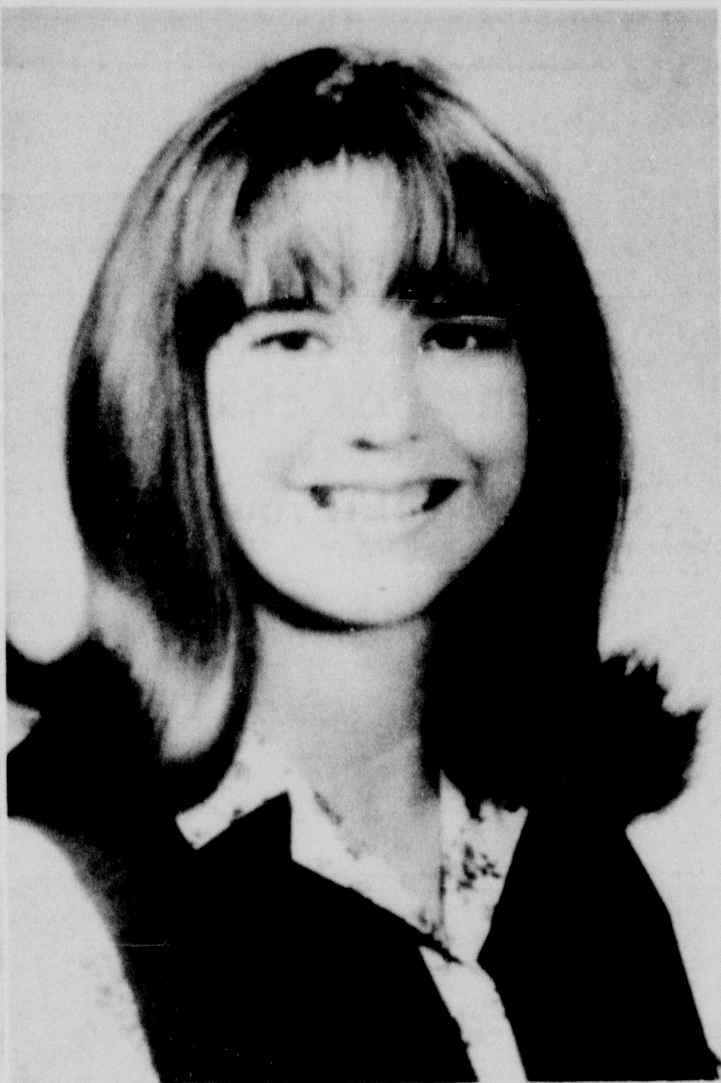

The couple will reside in the Dallas-Fort Worth area, where he will attend North Texas State University in Denton to work on a master's degree in biochemistry and will be a teaching assistant in university lab work. The bride plans to work in data processing.

She was presented with an award as outstanding graduate in data processing this year at WTSU and was named to Who's Who in American Colleges and

Universities. At WTSU, she was a member of Zeta Tau Alpha sorority, Alpha Chi honor society and Phi Gamma Nu. She was valedictorian of her graduating class at Canyon High School in 1965.

A graduate of a high school in Fort Worth, the bridegroom was a member of Phi Delta Theta Fraternity at WTSU.

Out of town relatives attending the wedding ceremony were Mr. and Mrs. Bob Sumner, Karie and Lane, Miss Evelynne Sumner and Mr. and Mrs. C. L. Sumner. (grandparents of the bridegroom), all of Fort Worth; Tom Sumner and Cathy of Hobbs, New Mexico; Mr. and Mrs. Joe Ihnat of Espanola, New Mexico; Mrs. Paul Sterba of Las Vegas, Nevada; Mr. and Mrs. W. J. TO THE PEOPLE

I have been serving the public at this location for many years. When I sold 15 feet of my frontage to the City to widen Highway 87, I was assured by the City that there would always be parking lane on the highway. I built my building accordingly. Now take the parking lane away. I could not back a car out without violating the law. The cost to rebuild or remodel is so high I would be forced to close rather than go through building over again.

MRS. GENE GALLOWAY

CHS Teacher Has Articles Printed

Jean Galloway has recently had two articles published by national magazines.

Mrs. Galloway is typing and shorthand teacher for Canyon High School. She completed high school at East Des Moines High School in Des Moines, Iowa and earned the BA in business education and art education in 1956 at Iowa State Teachers College, now Northern University of Iowa. Prior to coming to Canyon three years ago, Mrs. Galloway had taught in Glidden, Iowa and Lockbourne, Ohio.

Her most recent article "A Plea For Correlation" was published in the May issue of "Texas Outlook" and deals with the idea that teachers teach for facts and test for learning.

In the article, Mrs. Galloway says that "the need of education is to teach the students to think and make their own decisions." She writes that we "need to upgrade the educational system and teach the art of living, career planning, psychology and correlate between various classes."

"As yet there is no course entitled common sense or thinking for yourself," Mrs. Galloway says in the article further relating that "businessmen are beginning to say, 'you teach students to write a report and how to think, and we will teach

them the skills they need on the job' which is a challenge to educators."

Her second article, which appeared in the February 1969 issue of Business Education World, is entitled "Call The Typewriter Repairman? Maybe

--But first..." and is directed towards teachers giving an outline on care of the typewriter including complaints, possible causes and solutions to typewriter operation. It is a comprehensive article on typewriter problems.

Dolle Warns Of Brush Invasions

Area farmers and ranchers should begin spraying to eradicate mesquite and yucca soon, according to Don Dolle of the Soil Conservation Service in Canyon.

B. Cawthons Have Infant

Mr. and Mrs. Billy Cawthon of Amarillo announce the May 15 birth of a son, Terrell Shane, who weighed 6 pounds 6 1/2 ounces at birth at Southwest Osteopathic Hospital.

Grandparents are Mr. and Mrs. Bill Cawthon of Canyon, Mrs. John Taulman of Anchorage, Alaska and Charles Hafer of Seattle, Washington.

Dolle said invasion of mesquite and yucca now covers about 25,000 acres in the county and is spreading.

"Both species are heavy users of rainfall and produce little forage for livestock," Dolle said. "In fact, grass requires about one-half as much water to produce a pound of dry matter as mesquite."

Dolle said mesquite began leafing out May 1 and should be sprayed within 20 to 70 days following that time. Yucca should be sprayed just before bloom but no later than June 30.

He said aerial spraying with a mixture of one-half pound 2, 4, 5-T in a gallon of diesel fuel and enough water to make

four gallons per acre is the easiest and least expensive method of eradication.

Proper mixture for spraying yucca is 2/3 pound volatile ester 2,4,5-T (sliver) with a gallon of diesel and three gallons of water. A 90-day deferment of sprayed pasture land should follow the spraying.

The advanced class includes Leneta Davis, Leila Griffith, Susan Blake and Roma Johnson.

\$12,000 Grant To University

West Texas State University was recently accepted for a \$12,000 grant for research entitled "Petrography and Stratigraphy of Quaternary Volcanic Ash in New Mexico and West Texas." Directing the research is Dr. Paul W. Lambert, Associate Professor of Geology at WTSU.

Working full time this summer and part time next fall, the research will last for a period of 15 months.

According to Dr. Lambert, during the Quaternary or ice age in which we still live, there were volcanic eruptions in the Rockies. Volcanic ash from these eruptions drifted to the plains of New Mexico and Texas. The purpose of this study is to determine exactly where the ash deposits in West Texas and New Mexico came from, and to determine how old the deposits are.

The strata in which the ash beds are found will also be studied. Precise correlations and age determinations of ash beds will contribute to knowledge of quaternary vertebrate history of the southwest, according to Lambert.

A student assistant will help Dr. Lambert; however the student has not yet been named.

Commissioners Eye Contract

Canyon City Commissioners studied a proposed contract for the consolidation of the city's and Canyon Independent School District's tax offices Tuesday afternoon.

The commission suggested several areas in which the contract needed to be altered before it would be acceptable to the city.

The contract was drawn by City Attorney Elton Cox and was presented in rough draft form to the commission.

The school district will be the controlling agent of the combined tax office.

Major points of the contract which the commission thought applicable included the following:

"The contract can be terminated by either party by giving 90 days written notice to the governing body of its intent to terminate."

"The contract should allow for a 2 per cent discount for the month of October only for paying joint taxes."

"The contract should be renewable every five years."

"The city should pay about 4 per cent of their tax roll as the city's part of the cost of the joint office."

Commissioners said the contract might become effective as early as June 15.

"The rest of the quotation attributed to me by Mr. Matsler is erroneous."

"I didn't say anything at all about four lanes with proper turn signals being all that is needed to handle the traffic. This is a matter for a traffic engineer to decide."

Henson said that furthermore, Matsler's statement that "The University does not want it" is also erroneous.

Precinct 4; and J. D. Barker, member at large.

Commissioners agreed to invite an official of the Bi-City-County Health Unit to meet with the court and explain a bill of \$13,720.50 sent to Randall County as its share of the unit's expenses for 1968-69.

The court voted to accept a bid by International Harvester Company of Amarillo for a tractor at \$3,999.60 for Precinct 4. Imperial Chevrolet Company of Canyon was awarded the bid for two new cars for Randall County Sheriff's Department.

The cars were supplied for \$1,926.60 and \$1,716.60 with trade.

Commissioners voted to notify all county taxpayers with an increase in assessed valuation. The court will meet next week as a board of equalization, review tax rolls and set a date to meet with taxpayers.

County Clerk Leroy Hutton discussed with the court the possibility of combining several voter precincts for the Aug. 4 state constitution amendment election.

Commissioners agreed to rent 25 electronic voting machines to Data Media Corporation of Dallas for an election to be held in North Carolina. Rental will be \$5 per machine.

Commissioner Clarence Beckman expressed displeasure because pipelines in the county were taxed on a basis of 12 1/2 percent of actual value while other property was taxed on a basis of 15 percent last year. The court agreed to use 17 percent of actual value as the basis for taxation this year. This is the same formula applied to other property in the county.

At the request of Commissioner Jim Fletcher, the court spent more than an hour studying county funds and discussing advantageous means of investing them.

idea how the marijuana turned up in his suitcase, shaving kit and in the carpets of his apartment.

"If I'd thought there had been any I'd have gotten rid of it," he said.

Officers had previously testified they found hypodermic syringes and many capsules also in McAlpine's apartment.

But, he stated the syringes belonged to William Lavene, a man who was arrested along with the defendant on Dec. 5, but who was later released.

In his final argument, Randall County Dist. Atty. George Dowlen pointed out to the jury that the term "possession" does not necessarily mean that marijuana must be found on the person of the defendant. He said it also applies to marijuana being in the defendant's house or apartment, or under his "control and custody."

Dowlen and Assistant Dist. Atty. Mike Hinton handled the state's case against McAlpine.

has been absorbed by Canyon school district.

"This is your board now," he went on with a gesture toward the three Canyon men, who along with Dr. Dudley Moore, Harold Irwin, Joe Gill and Walter Graham, make up the Canyon board of trustees.

"I want to thank you for electing me to the Umbarger school board for 24 years--almost half of my life."

He thanked the Umbarger teachers and told them he hopes they will find employment in the Canyon school system.

With that he turned the meeting over to Parker.

"We are happy to meet with you folks," Parker began, "Although closing a school is not a thing to celebrate. It is a sign of the times and sometimes these things have to happen."

Jacobs then outlined plans for Umbarger school children. "We plan to continue operating this school out here if enough parents want to send their children here," said Jacobs. "Parents will be given a choice of sending their children to Umbarger or to Rex Reeves Elementary School in Canyon."

Jacobs said that if there is enough response, three teachers will teach six grades at Umbarger at least next school term.

A form was distributed to patrons. It provides space for parents to list the names ages and grades of their children as well as a preference for either Umbarger or Rex Reeves Elementary.

The forms must be filled out and returned to Jacobs at his office at Canyon High School by next Monday. Forms are available at Umbarger School for parents who did not attend the Monday night meeting.

"Our intent is to offer all the services and programs we offer in Canyon," said Jacobs but pointed to some limitations.

"We couldn't operate a cafeteria because the school out here has no cafeteria facilities but we will provide transportation for students whether they go to school here or in Canyon."

He went on to explain that a child must live at least two miles from school to be eligible for bus transportation.

He said that is is doubtful that physical education and music teachers could be provided for the Umbarger school.

"We wouldn't disregard them if we can work it out," he declared. "It is our job to educate children."

In a question and answer session, Jacobs said there is a projected possible enrollment of 43 students for the first six grades at Umbarger for next year. He said that if 15 or 18 express

a preference for Rex Reeves then obviously there could be no school at Umbarger.

Jacobs explained the change over which will occur intaxing.

He noted that Umbarger assessed valuations are the same as county valuations now with a tax rate of \$2.25. He told the group that the valuations would now be higher but the tax rate would be \$1.65.

He said the new taxing will begin with notices to be sent out in October and explained that taxes to be collected through these notices will be used to operate the schools next year.

Jacobs assured the group that Umbarger may keep its own Parent-Teachers Association. "How about getting our same

teachers back?" one woman asked.

"I'd say they are pretty good," Jacobs replied.

"We like them," someone said.

With this exchange there was a round of applause.

School principal is Mrs. Susan Dolle. Teachers include La Nelle Johnigan, Joyce Thuesen and Janice Cramer.

In debt to Canyon Independent School District about \$11,000 on high school transfers and with little prospect of being able to pay up, the Umbarger school board agreed to consolidation with Canyon last Friday.

With consolidation, Canyon school district absorbs both the assets and the liabilities of the Umbarger district.

Lake Tanglewood News

BY GAY HENDRIX

That cute little brown puppy that was hanging around the clubhouse has found a permanent home. Ginger Currie has adopted him, named him Cookie, and built him a little house of his own.

Dick Tinkham has eagerly started remodeling the clubhouse kitchen. Much more space and some additional equipment is desperately needed to make those tremendously popular Sunday buffets a little less hectic.

Carma takes off this weekend for about 10 days in the Tinkham's old home town of Omaha to visit Dick's mother and numerous friends.

Johnnie Anderson has whipped that golf course into shape and given it a few trial runs. He and Kenneth shot 82 for 27 holes! Does this make Johnnie one of the world's great golf pros? Hardly. He still hasn't cut holes into those velvet greens! But new cups and flags have arrived and the golf course will be open to Lake Tanglewood members and the REAL golfers on Saturday.

Boyd Hinton and Bob McBrayer seem to be making a career out of fishing this spring. In spite of some terrible weather last weekend, Boyd and Bob spent 23 1/2 hours fishing at Lake Meridith in the Panhandle Bass Tournament. Boyd did his fishing from his water buggy, of course. Both came home with shiny trophies and assorted new equipment. Bob took second place and Boyd came in third.

About 20 Lake Tanglewood women got together at the clubhouse Tuesday evening for a Tres Chic wig demonstration. Ginger Currie, Cory Mentzer, Dorothy Pearce and Vicki Joe splashed in the pool, came out dripping wet, and were quickly transformed with wigs. It wasn't long before everyone was joining in the fun and pulling various colored wigs on and off like hats. Cissy Cazell is a smashing redhead; Carma Tinkham looks great as a frosted blond; and Zelma Bedell and Velma Pearce were enchanted with bouffant hair styles that enhanced their natural hair coloring.

Erwin and Bee Russell have bought the Tony Harlan house and are looking forward to spending their weekends here after Tray graduates from Tascosa High. Since Erwin is planning to be tied down with his business (Russell Buick) this summer and doesn't think there will be time for the family to get away for a vacation, they have decided that Lake Tanglewood will give Bee and Tray a year round vacation spot.

The whole family likes fishing, golf and water sports, and Tray has recently become particularly interested in skin diving. Bee likes to "hobby" too, and is looking forward to getting out with her easel and oils.

Bingo Night Held At CCC

Bingo Night was held at the Canyon Country Club Saturday evening with thirty-seven persons on hand for the games.

Prizes were awarded to fourteen of the members and guests attending. They were Mrs. Whitey Voelm, Mrs. Don Sheffy, Mrs. Ray Carnahan, Mike Voelm, Kevin McClish, Mrs. L. Dean Tucker, Porter Vaughn, Joan Ferrell, Steve Self, L. Dean Tucker, Lisa Forrester, Toni Smith, Mrs. Cecil Parkhill, and Clyde Miller.

Those attending were Mr. and Mrs. Ray Carnahan, Mrs. Jennifer Carnahan, Mr. and Mrs. Lloyd Schuneman, Mr. and Mrs. Steve Self, Sandy Fowlkes, Jimmy Self, Mr. and Mrs. L. Dean Tucker, Mr. and Mrs. Whitey Voelm, Patti and Mike Voelm, Kevin McClish, Mr. and Mrs. Porter Vaughn, Lance Vaughn, Mr. and Mrs. Gene Read, Mr. and Mrs. Don Sheffy, Kristi and Karla Sheffy, Mr. and Mrs. James Gage, Mr. and Mrs. Clyde Miller, Joan Ferrell, Mr. and Mrs. Al Forrester, Lisa and Lori Forrester, Miss Toni Smith, and Mr. and Mrs. Cecil Parkhill.

The public is invited to attend.

Sixteen children, school

friends and relatives, joined in the entertainment festivities. Balloons with prizes connected to them decorated the house and that cake was decorated with bluebirds and roses made of frosting.

Refreshments of cake, ice cream, and punch were served to those attending.

A large portion of the first grade students scheduled to enter Gene Howe School next fall are pictured above. The pre-schoolers attended a

meeting held Wednesday to help them get acquainted with the school rooms and procedures.
